No. 71-23-17

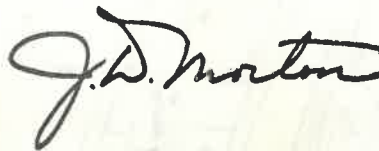

Chrysler Corporation has made available the increasingly popular option of a folding top open air sunroof for the 1971 Valiant Duster models. The sunroof permits opening of a folding roof panel to admit sunshine and outside air into the passenger compartment of the car.

BODY

The sunroof is manually operated; it folds back to the rear and can be locked into an open position. The manual folding sunroof consists of many parts, including a header section mechanism, rails, bows and cloth trim components.
